THE COMPLETE CLASSIFIED BUYERS' GUIDE

NEW YORK TELEPHONE COMPANY

A GUIDE TO THE BROOKLYN TELEPHONE DIRECTORY

For telephone purposes the United States and Canada are divided into more than 100 areas. Each area is assigned its own 3-digit code number. Customers who can dial distant points can reach a point in another area by simply dialing the 3-digit area code before the 2-letter, 5-numeral telephone number. An area code is not ordinarily used in making a call to a telephone in your own area, i.e., to a telephone having the same area code as the telephone you are using.

KEEP IN MIND THAT THE LISTINGS IN THIS DIRECTORY ARE SHOWN AS THEY ARE DIALED FROM BROOKLYN TELEPHONES.

If you are a customer in New York City, Nassau County or Southern Westchester consult the introductory pages of your local directory for information on how to dial points listed in this directory. Other customers see the instructions listed below.

HOW TO CALL BROOKLYN FROM OTHER AREAS

From Distant Points

The New York City area code 212 is used in reaching Brooklyn telephones from distant points.

If you can dial your own calls to Brooklyn, dial the 212 area code and the 2 letter, 5-numeral Brooklyn number. For example, to reach CO 6-9970 in Brooklyn dial 212 CO 6-9970.

If you place your Brooklyn calls with an operator give her the 212 area code and the 2 letter, 5-numeral Brooklyn number. Some listings in this directory show only the first two letters of the central office name. This gives all the information you need to complete a call.

Many distant customers are listed in this directory with their area codes. You may reach these customers by making your call exactly as listed. If your own area code is the same as the area code of the listed party you do not use the area code in making your call.

Some Southern Westchester and Nassau County, N. Y., numbers are shown in this directory without their area codes. These numbers do not require an area code when dialed from New York City, Southern Westchester or Nassau but distant customers should use the proper area code – 914 or 516 respectively – shown in the list on the opposite page.

From Certain Northern New Jersey Points

Certain Northern New Jersey customers reach Brooklyn telephones by dialing the special code "11" (one-one) instead of the 212 New York City area code. Many New Jersey listings are shown in this directory and include the New Jersey area code. If your own area code is the same as the code of the listed telephone, you do not use the area code in making your call. Please consult your local instructions on how to call New York City and New Jersey points.

For calls to Southern Westchester or Nassau County, N. Y., telephones listed in this directory see instructions under "From Distant Points" above.

COMPLETE TELEPHONE SERVICE FOR YOUR HOME

Save Time and Steps—

Throughout the home, telephones in handy places bring pleasure to all the family. The cost is only pennies a day for each additional phone in your kitchen for convenience, in your bedrooms for privacy and security – in any room you use frequently. Call your Business Office.

ON THE COVER

THE BROOKLYN BRIDGE. Designed by John A. Roebling and opened to the public on May 24, 1883, by President Chester A. Arthur, Governor Grover Cleveland and the Mayors of New York City and Brooklyn, the bridge was the engineering and construction marvel of its day. It was considered "the 8th Wonder of the World." Though other bridges have since exceeded it in length and size, it remains unsurpassed for the grace of its lines, the dignity of its Gothic arches and the massive strength of its piers. It is an enduring symbol of the unity of the city and its millions of people.

EMERGENCY CALLS ON PARTY LINES

WARNING: The Penal Law of the State of New York provides that "any person who shall willfully refuse to immediately relinquish a party line when informed that such a line is needed for an emergency call to a fire department or police department or for medical aid or ambulance service, or any person who shall secure the use of a party line by falsely stating that such a line is needed for an emergency call, shall be guilty of a misdemeanor." The law defines an "emergency" as "a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential."
